

# Top Gun Sports Team Drop-OUT policy

We understand that circumstances occur and that teams have to drop out of tournaments from time to time.

However once your team has entered a tournament the other teams listed there are counting on you being there.

If circumstances occur on your team that makes you short of players due to injuries or other reasons you should notify the director of the tournament as soon as possible.

## **Top Gun will enforce the following policies for dropping out of tournaments**

- (1) If your team drops out prior to Tuesday of the tournament there will be no penalty. However all drop outs will be monitored and if your team drops out of more than one tournament, depending on circumstances they could be put on pre-pay the rest of the year.
- (2) Teams that drop out on Wednesday before the schedule is posted will be assessed a penalty fee of \$100.00.
- (3) Teams that drop out anytime after the schedule is posted will be responsible for the entire entry fee to that event. These fees will have to be paid to the director before your team will be allowed to participate in another Top Gun sanctioned event.
- (4) If your teams drops out of a Top Gun event and is found to be playing in another event then it will depend upon when you dropped as to what the penalty will be. We understand that sometimes there are not enough teams to participate in a particular age division and if this is the case then Top Gun will review the situation and act accordingly. Otherwise, penalties will be imposed and teams will be responsible for paying the penalty amounts listed above before being able to play in another Top Gun event.
